Taurai Masaire

Full Stack Software Developer · Certified Cloud Engineer

Johannesburg, South Africa
taumasaire@gmail.com
linkedin.com/in/taurai-masaire
github.com/tau-rai

Software developer building **secure, scalable and intelligent** platforms — backend and cloud-native architecture in **Go, Node.js and Python**, frontends in **React, Vue and Angular**, and **agentic AI and MCP tool integrations** shipped to production on **AWS and GCP**. I own products end to end, from system design to deployment and maintenance.

Experience

Full Stack Software Developer
Jan 2025 – Present

Ruka Africa · Johannesburg

- Engineer secure, scalable backend services in Node.js, Go and Python, improving performance and reliability.
- Design microservices and RESTful APIs that integrate internal and external systems.
- Build responsive, modular frontend components with Vue.js and Angular.
- Deploy and manage numerous applications across AWS and GCP, improving reliability and scalability.
- Integrate AI-driven features for intelligent automation and data-driven decision-making.

Software Engineer
Jul 2024 – Present

Equipped Solutions Holdings · Johannesburg

- Revamped the company website, improving user experience and performance.
- Own hosting and maintenance of the company website, ensuring high availability and reliability.
- Design, build, test and deploy applications; take part in code reviews and production debugging.

Featured Project

Jamii Events
jamiievents.co.za

Event ticketing marketplace · South Africa & Zimbabwe

A marketplace to discover, create and sell tickets for concerts, festivals, sport and the arts across South Africa and Zimbabwe — with event creation, search, categories and a full cart-to-checkout flow. Built, deployed and maintained end to end.

Stack: Go (Gin), MySQL, Redis, React, TypeScript, PWA, React Native (Expo), Yoco & Paynow payments, Docker, Nginx, Google Cloud

Skills

Backend

Go, Node.js, Python, REST APIs, Microservices

Frontend

React, Vue.js, Angular, TypeScript, PWAs

Cloud & DevOps

AWS, Google Cloud, Docker, CI/CD, Nginx, Linux, Cloud Security

AI

Agentic AI integrations, MCP tools, AI feature integration

Data

PostgreSQL, MySQL, MongoDB, Data analysis

Certifications

Associate Cloud Engineer
Google Cloud

Data Analyst Associate
Microsoft Certified

Education

Software Engineering
ALX Africa | Holberton School · 2023 – 2024

BCom, Business Management
National University of Science & Technology · 2010 – 2014

Interests: hiking · cricket & football · experimenting with emerging AI tech
